UDESC

Profile

Hey! I am a UX/UI Designer, currently working at a large retail company and pursuing a master degree in Computer Science, in the area of Human-Computer Interaction. I think of my craft as the work of an engineer bringing life into tiny little bricks of visual components.

I invite you to get to know my work in my social media and portfolio :)

Experience

2021 - Present

Luizalabs

UX/UI Designer

I am part of the Design Systems team, performing user experience research and working in projects with components and interfaces.

2011 - Present

Freelance

Designer

I am a multidisciplinary designer who focuses on UI and UX for web and mobile interfaces. I have also worked with graphic design.

2010 - 2011

Pixeon

Graphic Designer

I worked with print and digital design areas inside the marketing department. I have experience in branding, wayfinding, and print media.
